

Crane Operator

Job Specification:

Crane Operator shall:

- ❖ Performs daily inspection of assigned crane as per safety and maintenance checklist provided by Crane Operator Certification and Training.
- ❖ Enters results of daily crane safety and maintenance checklist into logbook and report any deficiencies.
- ❖ Communicates with appointed Signalmen or Supervisor on instructions and signals prior to making the lift.
- ❖ Confirms the wind speed at the nearest available site. Wind speed exceeding 30 m.p.h. (48.3 k.p.h.) is unsafe for lifting operations.
- ❖ Operates the crane within safe working limits following safe lifting practices as outlined in Crane Operation Manual and instructed by Crane Training.
- ❖ Exercises good judgment by refusing lifts which exceed the crane's safe working limits.
- ❖ Shuts down and secures the crane properly when leaving it unattended or when completing his work shift.
- ❖ Travels crane between the parking area and various work locations.
- ❖ Loads and unloads cranes when required to be hauled by transport.
- ❖ Attends to all housekeeping functions on his assigned crane.
- ❖ Assist in on-the-job training of operators in AJTS Part 1, AJTS Part 2, and OJT Crawler Crane Operator AJTS.
- ❖ Provides and logs a lift plan for all critical, Tandem, or pick- and-carry lifts. Completes and logs a special permit for crane suspended personnel platform usage.
